

President's Corner

Dear Chapter members and friends,

As you know, Chapter 2 does not have a clubhouse or hangar of our own. We have relied on the Ivy Tech Aviation Center as our meeting location, but the continuing pandemic has ended outside groups using these facilities for 2020 and 2021. Sweet Aviation has helped us with use of a hangar for our Get Togethers, but during the Winter and Spring we will be seeking other meeting places. Thanks Sweet!

We are seeking a location or ideas on where to hold Chapter Get Togethers in the months of March and April, 2021 and beyond. Please contact me at President@eaa2.org or any board member with suggestions on a warm place for our chapter to meet.

On a brighter note, we have had a successful year. Make sure you plan for the Christmas Party at 6 PM on Dec. 5 and the online presentation by Astronaut Jim Lovell on Dec. 10.

Larry Zepp, President

Coming Events:

- ⇒ **Thurs. Nov. 12 at 6:00 PM— Note— earlier time—The Cirrus Jet presented by Sweet Aviation, Smith Field main hangar**

Are you a pilot? Are you building an aircraft? Are you an aircraft owner?
Are you just "plane nuts" about aviation?
If so, then join us! Visit our website at www.eaa2.org and click on "Join EAA2"

Chili Lunch a Success!

Thanks to all volunteers that made the Chili Lunch a big success—especially all of the work done by David and Laramie Resler.

We had good weather and a good turnout of both aircraft and custom cars.

See page 4 for Chili Lunch pictures

Thanks to ALL Volunteers!!

Jim Lovell online presentation for the Apollo 13 50 th anniversary. Thurs. Dec. 10, 8:00 pm EST. as part of the Wright Brothers Memorial Banquet. Check your EAA.org national login in advance. You must enter on the EAA web site to view.

Please welcome Pat Garvey as our new Technical Counselor!

Pat has stepped up as the new Chapter 2 Technical Counselor. The Technical Counselor (or TC) is the main advisor for individuals building a homebuilt and also restoring a certificated aircraft. The TC is a volunteer advisor that can relate standard aircraft methods to new builders or may help interpret plans or an engine problem.

A TC files volunteer reports to EAA regarding the builders progress and their advice is very valuable before structures are riveted or covered. Pat is an experienced A&P, as he related to us in our October Get Together.
